

Hello Himesh,

## **HARRISFROMPARIS.COM PROJECTS**

Here is my website. I designed it and created 100% of the content. It will provide you with information about the skills that I am now using as a volunteer for my local political party. You can see I have a long history of traveling and working alone. I have never worked for a big company. You will see that I have been to over 50 countries and have experience selling and creating stories there. In Dubai, I could do the work of seven members of a video production crew.

If you go to my shopping page, you will see several projects that we will want to create online advertising campaigns.

I have not used social media effectively so we will be setting all of them up and doing what we can to increase the mailing list and sell the different products. You will see that I can easily create online courses. I am also a trained public speaker and teach a course, "How to organize your thoughts, write a speech, and deliver it in one class." This might be very successful in India. As you see, I am not afraid to travel or go somewhere I have never been to. I lived outside the USA for 20 years.

I have Twitter, Instagram, Facebook, YouTube, Pinterest, Linked In but have not used them. I am willing to create a plan and begin. Remember, I have all the content I need and can easily produce more. I have created over 500 photo/text feature stories for newspapers.

### **Facebook**

I have my name here. I would like to get rid of the "01." I have had three "consultants" try and fail to help me plan a campaign. They always find something surprising that does not work. I also have pages for movie making made easy, and photo class but can't find it! I don't understand the business pages and the integration of the personal page.

### **LinkedIn**

it seems I should be able to get clients from this but I have not been active. One problem was that I was doing freelance features and each story was different. so if we could figure out a plan, I could easily add content regularly.

**Instagram**

I have done nothing with this. Again, available if we set relevant goals.

**Vimeo**

I use this to store videos for linking and embedding. I also have setup an online photo class here in the on demand section.

**YouTube**

I never understood keeping videos here. I once had hundreds of clips but if you're not promoting them what's the point? When you send someone a link to a video, they get lost looking at other videos after they watch yours.

And now somehow, I have the Chariman of the York County Republican Party's youtube account. But since they never shoot any videos, it's crazy.

To find this you can also search "Harris from Paris"

**Twitter**

I have the name Harrisfromparis but have never used it.

## **YORKREPUBLICANS.COM PROJECTS**

I am a member and local volunteer for the York County Republican Party. That is the same party as President Trump. This entire area is a big supporter of Trump and Republicans.

We are called conservatives but all it means is that we like being Americans. we appreciate our Declaration of Independence and our Bill of Rights. It is like holy scripture. It is the guide that governs society. No one is above the law. You have a right to self-defense. You have a right to speak freely. It is not radical and people are friendly. Not like the image that TV tries to show.

I am one of the very few media people. There are some political managers but there is no one around here who understands the different social media platforms.

I made the website, manage it, and create all the content.

As mentioned, I am now 100% in charge of all online content and distribution.

To see the political videos I made for them go here. These are the Facebook posts that I would like to boost. These were put together for a presentation. Each post will only be about 30 seconds. And we can change the last five seconds to have different messages.

### **FACEBOOK**

Here is their page which I did not set up but now I am in charge of. I replaced the front picture but I have not yet added any content here.

I DO NOT BELIEVE THERE ARE ANY OTHER SOCIAL MEDIA AND THAT IT ALL MUST BE CREATED FROM SCRATCH
